## LPG RE-LAUNCHES INTO UK MARKET

World leader in the science of natural cellular stimulation, LPG are proud to announce their expansion within the UK, with the launch of the next generation in natural and non-aggressive slimming and anti-ageing therapy, universally known as Endermologie.

Previously available to purchase from trade supplier CACI Ltd, LPG have now taken back their distribution rights. With a direct operation in the UK, they are forecasting a rapid expansion with the introduction of new technology, un-paralleled expertise and technical support.

With 24 years experience in research and development, LPG continues to evolve the science of cellular stimulation with the launch of the Cellu M6 machine, the latest innovation in the professional treatment of connective tissue. Already the first choice of major spas and wellness facilities around the world, the Cellu M6 range combines enhanced modifications and an exciting new menu of high-precision body and face treatments to fast-forward client results, earning professionals revenue and a point of distinction for their business.

*"LPG's visionary philosophy proves to be more progressive than ever, with the growing demand for more responsible and efficient ways to preserve our beauty and enhance our health,"* Nathalie Guitay, President, LPG Systems.

LPG equipment is an investment in quality, performance and results, backed by unrivalled levels of support to ensure professional's business gets the most from the machines and their customers enjoy measurable results. They aim to set business apart from the competition with the help of LPG equipment.
